I have a mild intellectual impairment with a slow learning impairment I was born with it, my brother who is named Robert is also intellectually impaired. There's nothing stopping us for having ago at what I am loving, I never give up. I keep to myself, I am honest, caring, always respect dignity.

♥ I am a caring young lady, I am willing to help others rather than myself, I don't dress up very much, I never dress to impress nor to be attractive, I dress to professional standard, I am just one of those poor uni students that can't afford very much.

♥ I am currently doing myself a fundraiser to help me purchase a new macbook, so I can do all my homework for uni and get hold of my lecture notes and

complete all my assignments which most are online, with the left over funds I will be donating to charities. One being the CFA I have always wanted to have community involvement especially in Rye. The 2nd will be in memory of a friend's brother who was also a friend of mine who died suddenly just before Christmas back in 2010, I have recently spoken to my friend I am going to donate to a charity in his brother's memory as they are good mates of mine, on the Southern half of the Mornington Peninsula we're a community like a family we help one and another, I treat my friends like family. I love to be with my family and friends.

♥ I enjoy bike riding, swimming, going to the Peninsula Hotsprings, local stuff, hanging out around the Mornington Peninsula and Sunbury, I have lived on the Mornington Peninsula since 1998, I also lived in Townsville in North Queensland, when I was a very young kid I was living in Melbourne in Montmorency from when I was born until 1988 when we moved to Townsville, while we lived up there we lived through natural disasters like cyclones and floodings, I will never forget Cyclone Joy in 1990 for taking away Christmas Day there was also one the year before I forgot it's name, I remember cyclone Justin back in 1997 the year before we moved back home, we were watching the Mighty Ducks in Townsville's main cinema during the cyclone I was also nursing a sprained left ankle at the time I was 15 at the time, then in 1998 there was cyclone Sid which caused flash flooding and landslides on Magnetic Island plus one other cyclone.

♥ I am a student studying to become a paramedic i am enjoying every bit of it like no tomorrow, I do like to keep to myself I do like to socialise like have coffees, movies, parties etc. I like to hide out around Sullivan's Bay in Sorrento because it's nice & quiet where no one can find me, I love to go to the Peninsula Hotsprings with Jackie, Alexis, Racheal, Damien and many of my other friends who I spend most of my time with.

I don't like when my day or my activities get destroyed

> I don't like pumpkin, zucchinis, egg plants and squash, jealous people, violence, bullying, hoons,

Also I don't like fast thrill carnival rides, photo labs, cloudy ammonia (stuff used for cleaning) all this gives me severe migraines getting spooked (fright) some horror movies. Being forced into things I don't like or I don't want to do. If anyone of my friends ignore me from doing the wrong thing or don't listen to me, I will get annoyed and take off.

I have never found myself attractive, I am still getting chased because of my nature, I don't go after guys that are cute or attractive, I won't date anyone under the age of 25 or 27 no older than 36.
